

EUKANUBA KITTEN DRY CAT FOOD HEALTHY START CHICKEN

RECOMMENDED FOR: KITTENS (1-12 MONTHS) AND PREGNANT OR LACTATING QUEENS AVAILABLE PRODUCT SIZES: 400G, 2KG, 4KG, 10 KG

PRODUCT OVERVIEW

FOR EVERYDAY EXTRAORDINARY AND MORE

With 91% animal protein (out of total protein level) your kitten will quickly grow up to become nature's greatest carnivore. The high animal protein content in EUKANUBA Kitten Healthy Start Dry Cat Food Rich in Chicken helps to build and maintain lean muscles, which no vegetable protein could ever achieve. It is a balanced, complete and world-class nutrition that helps you in every detail of this challenge. It's as simple as this: High Quality Nutrition helps support healthy growth. With EUKANUBA you can kick-start your kitten's development: DHA will help promote good brain and vision development. It contains calcium and other important minerals that help support strong bones and healthy teeth. An antioxidant, vitamin E, supports the development of natural defences and boosts the immune system. EUKANUBA kitten food contains beet pulp for an effective nutrient absorption and is formulated with an optimal balance of omega-6 and omega-3 fatty acids to help promote a healthy skin and coat for an absolutely magnificent appearance. Support your kitten in becoming what she was meant to be, nature's greatest carnivore, with EUKANUBA Kitten Healthy Start Dry Cat Food Rich in Chicken.

FEEDING YOUR CAT:

- » We recommend feeding your kitten 3 times a day until the age of 6 months and afterward twice a day.
- » Divide the daily amount shown in the chart by the number of meals.
- » For feeding guidelines, see feeding chart. Your cat may eat more or less depending on age, temperament and activity.
- » Always have plenty of fresh water available for your cat to drink.
- » When switching to Eukanuba, gradually introduce over 4 days.
